The Honorable John N. McMahon
Deputy Director
Central Intelligence Agency
Washington, DC 20505

Dear Mr. McMahon: *John*

Enclosed is an advance copy of the DARPA Strategic Computing Plan which was requested by the Congress in the FY84 Defense Authorization Bill.

DARPA's plan addresses the development and application of Machine Intelligence Technology to critical defense problems. We believe this program to be one of the most important for Defense in the future.

Your comments on the plan would be most welcome.

Sincerely,

Robert S. Cooper
Robert S. Cooper
Director
